Art Unit: 3662

1. Claims 14 and 16-19 are allowable over the prior art of record.
2. It is noted that Applicant has argued with respect to the prior art rejection of independent claim 1 that claim 1 as now newly-amended defines over the applied prior art in that the waveform is now called a "complete waveform."

It is pointed out that any section of a signal is a waveform, and cannot be said not to be "complete" no matter what the length of the signal portion. There is no need that a complete cycle be produced for the signal to be "complete." Whatever "complete" is intended to mean in this context, the applied reference does produce a waveform that is "complete" at least to the extent that the waveform produced by Applicant's invention is "complete." Thus, the prior art rejection of record of claim 1 as set forth in section 2 of the prior Office Action is maintained as set forth therein.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In independent claim 1 as newly-amended, the word "complete" is indefinite and unclear in context.

Dependent claims 2-13 are unclear in that they depend from unclear independent claim 1.

Art Unit: 3662

5. Claims 2-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
